MADE FOR EACH OTHER

A centralized vacuum cleaner system and a hotel:
there's nowhere else that the many advantages
of a centralized vacuum cleaner system are clearer
than in the rooms of a hotel.

The system's silence ensures absolute discretion
at all times of day,
and its sheer operating speed allows rooms
to be made available again in half the time,
also giving great savings in time for cleaning staff.

If your problem is hotel cleaning,
call General D'Aspirazione,
there's no system that's more suitable, elegant and efficient.
