## Cyclonic Separator

120 liters

Cyclonic Separator 120 litres with self-cleaning

Features:

- White sheet metal cyclonic separator equipped with washable polyester cartridge filter.
- Dust container with 120 litres capacity with wheels and handle for quick release from the cyclonic separator.
- auto-retainer for the dust plastic bag with no items inside the bag.
- Separator support frame sheet metal, aluminium painted, complete with height-adjustable anti-vibration feet.
- Electropneumatic self-cleaning system of the filter, programmable with a timer, with compressor and dedicated air tank, keeps the filter clean through compressed air shocks along the inner parts of it, liberating it of the dust that drops into the dust bag.

Technical Data		Dimensions	
Cap. container	120 litri	Cylinder diameter	55 cm
Filter material	Polyester	Height	161 cm
Filter surface	6 m <sup>2</sup>	Width	74 cm
Ø input/output	100 mm	Depth	79 cm
Filter self-cleaning	Yes	Weight	100 Kg
